

Toy Closets

Banner Health provides family-centered, comprehensive pediatric care for children. Part of that care includes nurturing our young patients during what can sometimes be a stressful time in their lives.

Toy closets, or carts, can be found at all of our facilities that offer pediatric services, to provide a much deserved reward to children undergoing treatment. After a challenging procedure or achieving a milestone, a child's trip to the toy closet to choose their own toy means the world to them.

We are constantly looking for ways to keep our closets full. We partner with many individuals and organizations to fill the shelves with new, unwrapped toys and new books. It is crucial that the toys be brand new to decrease the risk of infection in our facilities.
